MONARCH

CUSTOM GROWTH SYSTEM
OZONE SERVICES · 2026

A PROPOSAL FOR YOUR OZONE BUSINESS

Your next install is already *inside your service radius.*

A custom CRM and growth system that finds local commercial prospects, starts the conversation by call, text, and email, and keeps every follow-up moving until it's a booked assessment.

LOCAL LEAD FINDER | AI CALLS + SMS + EMAIL | ONE PIPELINE

WHAT WE'D BUILD

01 **Find the market**
Set a radius around your service area and pull in the commercial properties that fit your offer. Dedupe against existing customers before the first call.

02 **Start the conversation**
AI-assisted calls, two-way SMS, and email run as one sequence — with live handoff the moment someone is interested.

03 **Work the pipeline**
Every touch lands on one record. Stages, tasks, and reminders update from real activity — not memory or a spreadsheet.

04 **Close the loop**
Capture ozone-specific intake, quote, schedule, and trigger service and referral follow-ups automatically.

> BUILT FOR OZONE
> Square footage, odor source, occupancy, and install access — captured on the first conversation, not scribbled on a quote.

LEAD FINDER + OUTREACH — 148 PROSPECTS · 25 MI

THE SHIFT

From lists, dialers, texts, and a spreadsheet to *one system that knows what happened and what happens next.*

ONE RECORD · ONE NEXT STEP · ONE VERSION OF THE TRUTH

THE FIRST 30 DAYS

One offer. One service area. Real usage.

WEEK 1
Map
Service area, offer, stages, scripts.

WEEKS 2–3
Build
CRM, lead engine, sequences, integrations.

WEEK 4
Launch
Go live, train the team, tune what the data says.

NEXT STEP

30-minute working session. We'll map your market and the first build.
