MONARCH

CUSTOM GROWTH SYSTEM
OZONE SERVICES · 2026

A PROPOSAL FOR YOUR OZONE BUSINESS

Your next install is already *inside your service radius.*

A custom CRM and growth system that finds local commercial prospects, starts the conversation by call, text, and email, and keeps every follow-up moving until it's a booked assessment.

LOCAL LEAD FINDER | AI CALLS + SMS + EMAIL | ONE PIPELINE

WHAT WE'D BUILD

01 **Find the market**
Set a radius around your service area and pull in the commercial properties that fit your offer. Dedupe against existing customers before the first call.

02 **Start the conversation**
AI-assisted calls, two-way SMS, and email run as one sequence — with live handoff the moment someone is interested.

03 **Work the pipeline**
Every touch lands on one record. Stages, tasks, and reminders update from real activity — not memory or a spreadsheet.

04 **Close the loop**
Capture ozone-specific intake, quote, schedule, and trigger service and referral follow-ups automatically.

> BUILT FOR OZONE
> Square footage, odor source, occupancy, and install access — captured on the first conversation, not scribbled on a quote.

LEAD FINDER + OUTREACH — 148 PROSPECTS · 25 MI

THE SHIFT

From lists, dialers, texts, and a spreadsheet to *one system that knows what happened and what happens next.*

ONE RECORD · ONE NEXT STEP · ONE VERSION OF THE TRUTH

THE FIRST 30 DAYS

One offer. One service area. Real usage.

WEEK 1
Map
Service area, offer, stages, scripts.

WEEKS 2–3
Build
CRM, lead engine, sequences, integrations.

WEEK 4
Launch
Go live, train the team, tune what the data says.

NEXT STEP

30-minute working session. We'll map your market and the first build.

team@monarchtechusa.com
monarchtechusa.com

A custom system, *built and run by Monarch.*

One build to design, integrate, and launch the system. One monthly partnership to keep it hosted, supported, and improving.

ONE-TIME BUILD

$30,000

Discovery, custom CRM, lead engine, AI calling setup, sequences, integrations, training, and launch.

50% TO BEGIN · 25% AT BUILD REVIEW · 25% AT LAUNCH

MONTHLY PARTNERSHIP

$2,500 / month

Hosting, monitoring, support, provider management, campaign optimization, and the next iteration.

BEGINS AT LAUNCH · 90-DAY INITIAL TERM · MONTH TO MONTH AFTER

What the build includes

- ✓ Discovery and market map
- ✓ Custom CRM and data model
- ✓ Radius lead finder + filters
- ✓ Duplicate and customer protection
- ✓ AI voice scripts and setup
- ✓ SMS and email sequences
- ✓ Pipeline and task automation
- ✓ Core integrations and handoffs
- ✓ Consent, opt-out, and logging
- ✓ Dashboard + field view
- ✓ Team training and documentation
- ✓ 30-day launch hypercare

What the monthly covers

- ✓ Hosting and infrastructure
- ✓ Monitoring and uptime
- ✓ Support for your team
- ✓ AI and provider management
- ✓ Sequence and script tuning
- ✓ Campaign optimization
- ✓ Deliverability and consent review
- ✓ Monthly reporting and roadmap
- ✓ Small improvements each month
- ✓ Quarterly strategy session
- ✓ One workspace, up to 10 users
- ✓ Up to three active sequences

WHY THIS PRICE

This isn't a seat license. It's an operating system.

The build replaces months of product and engineering work around one specific business. The retainer replaces a stack of disconnected tools — and a part-time operator trying to keep them honest. At your average install value, one incremental install a month can cover the retainer. A handful covers the build.

WHAT IT REPLACES Lead lists · Dialer · SMS platform · CRM + admin · Manual follow-up

TIMELINE

A focused first phase, not a six-month committee.

WEEK 0	WEEK 1	WEEKS 2–3	WEEK 4	MONTH 2+
Kickoff	**Map**	**Build**	**Launch**	**Optimize**
Access, goals, offer, service area.	Market, stages, scripts, data.	CRM, lead engine, sequences.	Go live, train, tune.	Report, refine, expand.

PHASE 1 SCOPE

One workspace, one service area, up to 10 users, and up to three active sequences. Additional markets, brands, or custom integrations are quoted separately.

USAGE & TERMS

Call, SMS, email, and AI usage is monitored monthly against a fair-use allowance. Paid ad spend, print/video production, hardware, and third-party subscriptions outside the core stack are not included.
